

INTERNATIONAL DAY FOR THE
**ELIMINATION OF
VIOLENCE**
AGAINST WOMEN

November 25th, 2021

Hi, everyone! Today, I am going to talk about something very important. Today is International Day for the Elimination of Violence Against Women.

Violence Against Women

What is it?

Violence can happen to all people, but statistically, violence happens to women more than any other gender.

ABOUT THIS DAY

November 25th is International Day for the Elimination of Violence Against Women.

It is a day about raising awareness of the fact that women around the world are victims of rape, domestic violence, and other forms of violence.

Violence can come in many forms. We will talk more about them during this presentation.

OUR GOALS FOR THIS DAY

Raise awareness

Unite people

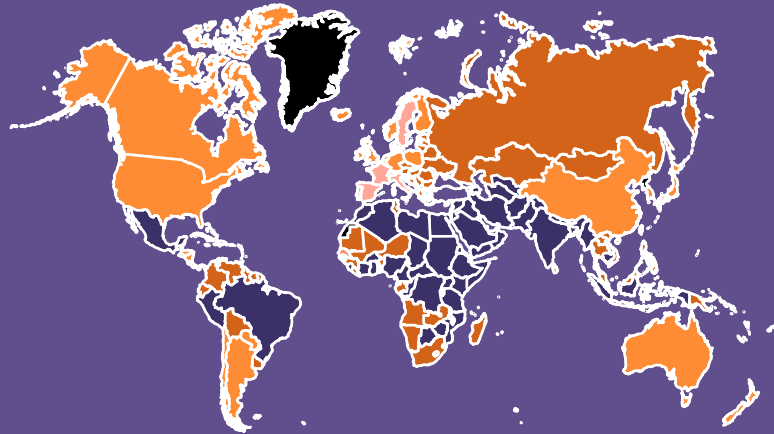

Enact change

My goals of this presentation are to teach you more about violence against women, raise awareness about the subject, unite us, and help enact change.

WOMEN'S PHYSICAL SECURITY

- Physically secure
- High level of PS
- Medium level of PS
- Low level of PS
- Lack of PS
- No data

Here is a map of the places where the most violence against women occurs. For example, Africa, parts of Asia, and parts of South and Latin America have the highest rates of violence against women. In Spain, there is a high level of physical security for women, but this does not mean that there are no acts of violence against women in Spain. There still are many.

CAUSES OF VIOLENCE

Cultural

Economic

Educational

Environmental

Here are some causes of violence against women around the world.

“

Perpetrators of abuse often make their victims believe that they are somehow responsible for their own abuse. Such misplaced notions shift the blame of the abuse from the abuser to the abusee”
